

Dear FCC, the reason why I changed to XM Radio is the fact that I could have Instant Traffic and Weather information, have great music choices and even listen to news and good talking programs. I pay for these channels and it should not be up to the FCC or anybody else on what XM radio broadcasts.

Please reject NAB's Petition 04-160.

This is not commercial radio which everybody can listen to - this is for the people who want variety and pay for the service.

Thank you,
Romeo Durscher
